Opis produktu

Perhaps the most intimate, “hard”, dark, tormented work that Nimh has ever conceived and developed, in over 30 years of musical activity.
The mirror of almost ten years of unstoppable decline, of oblivion of reason, of denial of the obvious and reality, of abandonment of all forms of lucidity and rationality, of an incomprehensible shared vocation to martyrdom and self-destruction.
A seemingly dead-end tunnel, the course of a story of daily progressive decadence, told in music and described without filters or conditioning, with anger and disbelief, weariness and desperation, disillusionment and desire for rebellion...
A mammoth, uncomfortable work, as personal as it is “choral”, for all those who refuse to "get lost" in the vortex, but who barely manage to resist and to look to the next day with a little hope and a non-illusory optimism.
A compendium of nine years of ideas, visions, suggestions, thoughts and “apocryphal” musical writings, collected and made available for the first time on CD by Fluttering Dragon.
