Avskedsrum – a dreamlike solo project where hope and madness meet

Avskedsrum is the name of Per Wistbo Nibell (Simply Dead) solo project. Here, songs of hope, sorrow, longing, and despair coexist in a state drifting between dream and nightmare, where the line between brilliance and madness is painfully thin. With the debut release Villospår, Avskedsrum presents nine compositions that challenge, seduce, and unsettle. It is a restless blend of unyielding noise and divine melodies – a symphony of fragments and emotions filtered through crackling shortwave tapes, broken circuits, and haunted effects machines.

Villospår is not merely a debut, but an invitation into a world where the fragile and the brutal are allowed to share the same space. Where every tone carries traces of something lost, and every layer of static hides a melody that refuses to let go. Avskedsrum is a journey inward, outward, and beyond the comprehensible – and Villospår marks the beginning of something both alluring and unsettling.
